

SHAKEALERT!

- building an earthquake early warning system for California

by Doug Given

USGS Earthquake Early Warning Coordinator

- Millions of Japanese citizens received advance warning of the 2011 magnitude 9.0 Tohoku earthquake — can such a system be built for use in California?
- University researchers and government agencies are working together to create an Earthquake Early Warning system in California to reduce earthquake losses
- April is Earthquake Awareness Month in California — how could you and your family best prepare for severe ground shaking using 30 seconds of advance warning?

Free Public Lecture
USGS Menlo Park Science Center
April 26, 2012, 7 p.m.

Directions to U.S. Geological Survey

The USGS Menlo Park Science Center is located at 345 Middlefield Road in Menlo Park

From San Francisco

- Exit highway 101 at Marsh Road, Atherton
- Go west to the T-junction with Middlefield Rd.
- Turn left (south)

From San Jose

- Exit highway 101 at Willow Road, Menlo Park
- Go west to Middlefield Rd.
- Turn right (north)

Enter the USGS campus at Survey Lane with large stone markers labeled “U.S. Geological Survey”

 Please contact us at least two weeks before an upcoming event to request accommodation for special needs by calling 650-329-5136.
