Untapped Capacity: Our 4,000 Species of Native Bees

So many unknowns and so many potentials

by Sam Droege, USGS Wildlife Biologist

- In secret, Native Bees, not honey bees, do most of our pollinating
- Why we don't know the status of 99% of our Native Bees
- Why are there 400 Native Bees without names
- Why biodiverse native plant communities = biodiverse native bee communities

USGS Menlo Park Campus • Free Public Lecture • April 28, 2016 at 7PM
