

Free Public Lecture • **June 24, 2010, 7 p.m.** • USGS Conference Room A, Bldg. 3 • 345 Middlefield Road, Menlo Park

Monterey Canyon - Superhighway to the Deep-Sea

USGS-MBARI Cooperative Oceanographic Research

By Charles K. Paull, Senior Scientist
Monterey Bay Aquarium Research Institute
Moss Landing, CA

- Monterey Bay provides a diverse 4,000 meter-deep "laboratory" for both biologists and geologists
- Ocean studies are providing critical information on climate change, ecosystems, and environmental hazards
- New discoveries reveal how sediment travels to the deep ocean - the triggers, quantity, and timing of events
- Underwater vehicles assist in seafloor mapping and exploration
